MADE IN ITALY

EXIT CARBON'S GIOTTO
AESTHETIC APPEAL AND STRENGTH
IN A REAL DESIGN BREAKTHROUGH

GIOTTO
THE STYLISH
SWIM LADDER

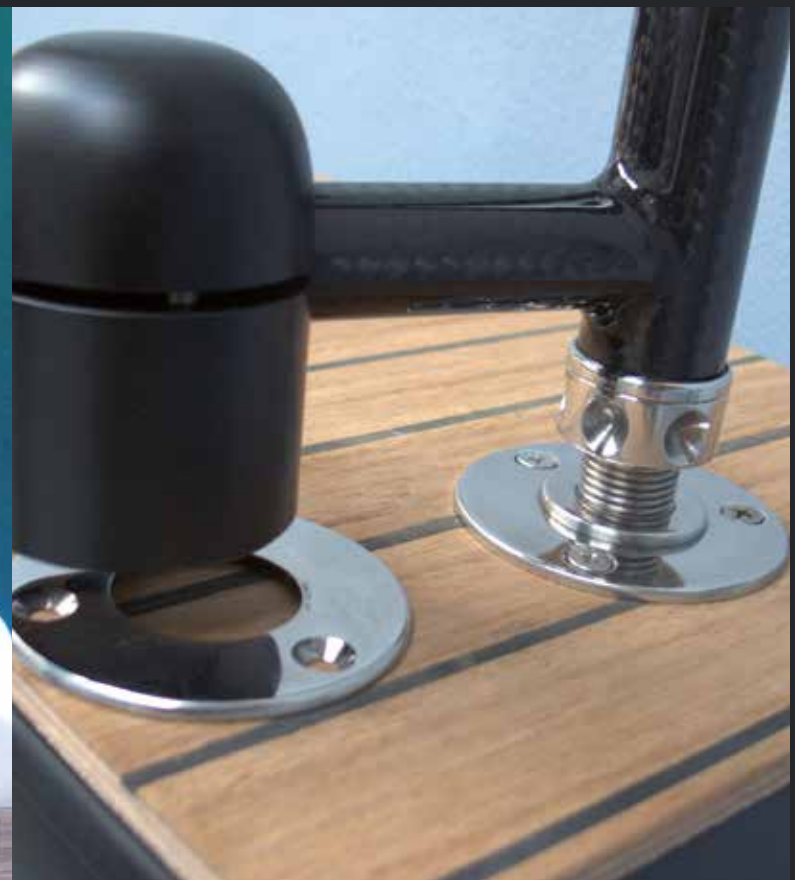
GIOTTO is the light, fully customizable carbon fiber swim ladder with removable handles. All fitting positions are adjustable, including the distance between steps, the distance between the top step and the deck, and, of course, the ladder width. Long ladders come in two parts – three including the top handles – and include special, adjustable V-shaped hull spacers for stability.

EXIT CARBON'S GIOTTO LADDER RECEIVED
DAME DESIGN AWARD SPECIAL MENTION (2014)

DALI THE MULTIFUNCTIONAL
IT'S A SAFE BOARDING LADDER, A FOREPEAK LADDER, OR A SAIL STORAGE LADDER

DALI
THE ESSENCE
OF SWIM LADDER

DALI is the essence of a swim ladder in its purest Form. For all yachts with an angled deck pad, that are not compatible with regular ladders, we propose our Side Wall Dali with handles fitted on the deck. The Dali ladder is ideal for interior or exterior use.



STYLE FROM TECHNOLOGY

Exit Carbon produces the Dali and Giotto ladders according to the highest quality standards.
We use:

- Epoxy resin pre-impregnated carbon fiber fabrics that are autoclave cured at high pressure/temperature
- Pultruded carbon fiber tubes
- Aluminium alloy protected with hard anodisation.

It's treated against salt, humidity, and corrosion.

GIOTTO E DALI, THE CARBON LADDERS

MATERIAL /
CARBON FIBER
EPOXY PRE-PREG FABRICS

CONSTRUCTION /
AUTOCL AVE CURING
IN FEMALE MOLD + PULTRUSION

FITTINGS /
STAINLESS STEEL DECK SOCKETS (2)
STAINLESS STEEL PLUGS (2)
REMOVABLE HANDLES WITH STAINLESS
STEEL ROTATING JOINTS (2)
DELRIN DECK PADS (2)
ADJUSTABLE DELRIN FRONT PADS (2)

TECHNICAL FEATURES /

LENGTH /
1500mm to 3600mm

WIDTH /
400mm, 450mm, 500mm, 550mm, 600mm

STEP DISTANCE /
300mm

NUMBER OF STEPS /
3, 4, 5, 6 up to 10

WEIGHT /
7 kg to 14 kg

3 PARTS LADDERS /
2+3, 3+3, 3+4, 5+5

ADDITIONAL ACCESSORIES /
PADDED STOW BAG
ADDITIONAL STAINLESS STEEL DECK SOCKETS
CUSTOM LENGTH DELRIN FRONT PADS
